

# 4<sup>th</sup> ANNUAL MEETING SIAGASCOT AROUND THE WORLD

NAPOLI 27-29 marzo 2025  
Stazione Marittima Molo Angioino

## THE CONGRESS CHAIRMEN

**Giovanni Di Giacomo**  
Concordia Hospital, Rome

**Donato Rosa**  
University Federico II, Naples

## WELCOME YOU IN NAPLES

The evolution of sports medicine has transformed the approach to the prevention, diagnosis and treatment of sports injuries, including elective orthopaedic surgery treatments.

This international conference aims to bring together experts from all over the world to discuss and compare different therapeutic methods and innovations in the field.

### Goals

- Knowledge Sharing: Create a platform for sharing clinical experiences, advanced surgical techniques and rehabilitation strategies.
- Comparison of Therapeutic Practices: Analyse and compare the therapeutic approaches used in different regions of the world, identifying best practices and areas for improvement.
- Innovation and Research: Present the latest research and technological innovations applied to traumatology and orthopaedic surgery, encouraging international collaboration.
- Continuing Education: Offer advanced training opportunities through workshops, practical sessions and masterclasses held by internationally renowned experts.

### Session Types

#### 1. Plenary Sessions:

- *Keynote speeches by world leaders in the field of sports orthopaedics.*
- *Round tables on the comparison of therapeutic approaches between different nations.*

#### 2. Thematic Sessions:

- *Treatment of muscle and tendon injuries.*
- *Innovations in arthroscopic surgery.*
- *Management of sports fractures.*
- *Post-operative rehabilitation and functional recovery.*
- *Elective orthopaedic surgery, including operations for osteoarthritis, joint replacement and ligament reconstruction.*

#### 3. Practical Workshops:

- *Advanced ligament reconstruction techniques.*
- *New technologies in diagnostic imaging.*
- *Integrated approaches to sports rehabilitation.*
- *Elective orthopaedic surgery procedures with focus on arthroplasty and arthroscopy.*

#### 4. Clinical Study Presentations:

- *Exposition of complex clinical cases and the solutions adopted.*
- *Discussion of the results of international multicentre studies.*

#### 5. International and national speakers in combined sessions

*The congress will see the participation of renowned specialists in orthopaedics and sports traumatology from:*

- United States
- Europe
- Asia
- Australia
- Latin America
- Africa

These experts will share their experiences, and the specificities of the therapeutic approaches adopted in their countries of origin, encouraging mutual enrichment and the development of global guidelines.

**We're waiting for you because...**

This congress is a unique chance for orthopaedic specialists, residents, physiotherapists, sports doctors and researchers to update themselves on the latest news in the field of sports traumatology and elective orthopaedic surgery. Furthermore, it allows to compare different therapeutic practices and build a network of international contacts. Collaboration and dialogue between professionals from different medical cultures will help us raise the standards of care for athletes around the world and promote a future of optimal health and performance.
